

Sustainability Policy

Creating a better future

We are passionate about New Zealand's future and are proud to play an active role in communities across the country.

The companies of the Omah Group aim to create long term value, taking an integrated view of sustainability through informed and balanced decision-making processes that are focused on robust social, environmental, and economic outcomes.

Our commitment

People and Communities

- Provide a workplace that is safe, and which promotes equality, diversity, and inclusiveness
- Provide opportunities which enhance the wellbeing of our team members
- Empower, challenge, and support our team members to reach their professional and personal goals
- Promote a culture based on leadership, accountability, and continual improvement
- Engage with the communities we work within to inform and invest in activities that matter to people

Environmental Stewardship

- Reduce our carbon emissions
- Increase renewable energy use and the adoption of low carbon emission technologies
- Reduce the volume of waste generated
- Conserve water
- Adopt environmentally sustainable procurement practices

Economic

- Build upon our reputation as a market leading provider of environmental services, enabling financial investment for the growth of our companies, and for allowing us to support and give back to our communities.

Bevan Jones, Director
