

Environmental Policy

Working together to protect and enhance our natural environment

In the completion of services, the Omah Group is committed to the continual development of improved environmental performance, and the reduction of environmental impacts associated with our activities.

We will:

- Work towards minimising our environmental impacts through innovation and science lead energy and resource efficient operations, focused on reducing, reusing and recycling
- Comply with industry good practice guidelines, and relevant legislative and regulatory conditions applicable to our activities
- Identify impacts to the environment and implement effective controls for their management
- Set objectives and targets to measure and improve our environmental performance
- Train our team members to identify environmental risks and opportunities
- Drive continual operational improvements using an environmental management systems certified to ISO14001
- Respect and acknowledge the multicultural society we live and work within applying the principles of partnership and participation to protect and enhance New Zealand's natural environment.

Bevan Jones, Director
